Dear Paul

**Craigie Hill Golf Club**

Thank you very much for inviting me and my colleague Stuart Clayton to the club earlier this week to hear about your exciting plans for the future of Craigie Hill, we thoroughly enjoyed the discussions and are very supportive of the direction of travel proposed.

The club is not alone in finding it a challenge year on year to prosper and as we discussed there are a great many factors of a very different society now, compared to a decade ago which have impacted but what is refreshing to hear is the commitment of the club to secure the future of the game at Craigie Hill for generations to come by adapting it's current model, whilst protecting what is important by way of history and heritage of the club. This has clearly been a journey which has been delayed by the pandemic but none the less takes courage, member and community support and a lot of time and effort, so I was very pleased to hear of how far you have come with the project thus far.

At Scottish Golf our vision is to make golf Scotland's game for everyone and the ambitions shown by Craigie Hill with it's proposed redevelopment to a 9 hole facility which will offer wider community options beyond that of golf, aligns to our strategic goals. A family friendly community facility which can offer a variety of options for existing and new audiences is an exciting prospect and one which we are supportive of the club in pursuing. Securing the financial future for the club to continue for generations yet to come is very obviously at the heart of the project and the governance structure that has been adopted demonstrates that commitment to the wider community aspect of this project.

We wish you every success as you continue on this journey and look forward to regular updates and supporting when we can as the project progresses.

Kind regards.

**Karin Sharp**  
**Chief Operating Officer**
